Re: Management & Installation of Emergency Lighting – District

Date: May 5, 2016

Background:

The State Fire Marshal conducted a districtwide inspection in August 2015. During that inspection, violations were discovered and an order to comply was issued concerning emergency lighting at several locations throughout the district.

Administration contracted with Nabholz Construction to manage the installation of emergency lighting at the locations in non-compliance. The cost associated for installation and management is \$33,577.

Recommendation:

Administration recommends board approval for payment to Nabholz Construction for the management and installation of emergency lighting at various locations throughout the district.

Motion:

"I move the Board of Education approve payment to Nabholz Construction for the management and installation of emergency lighting at various locations throughout the district for a cost of \$33,577."
