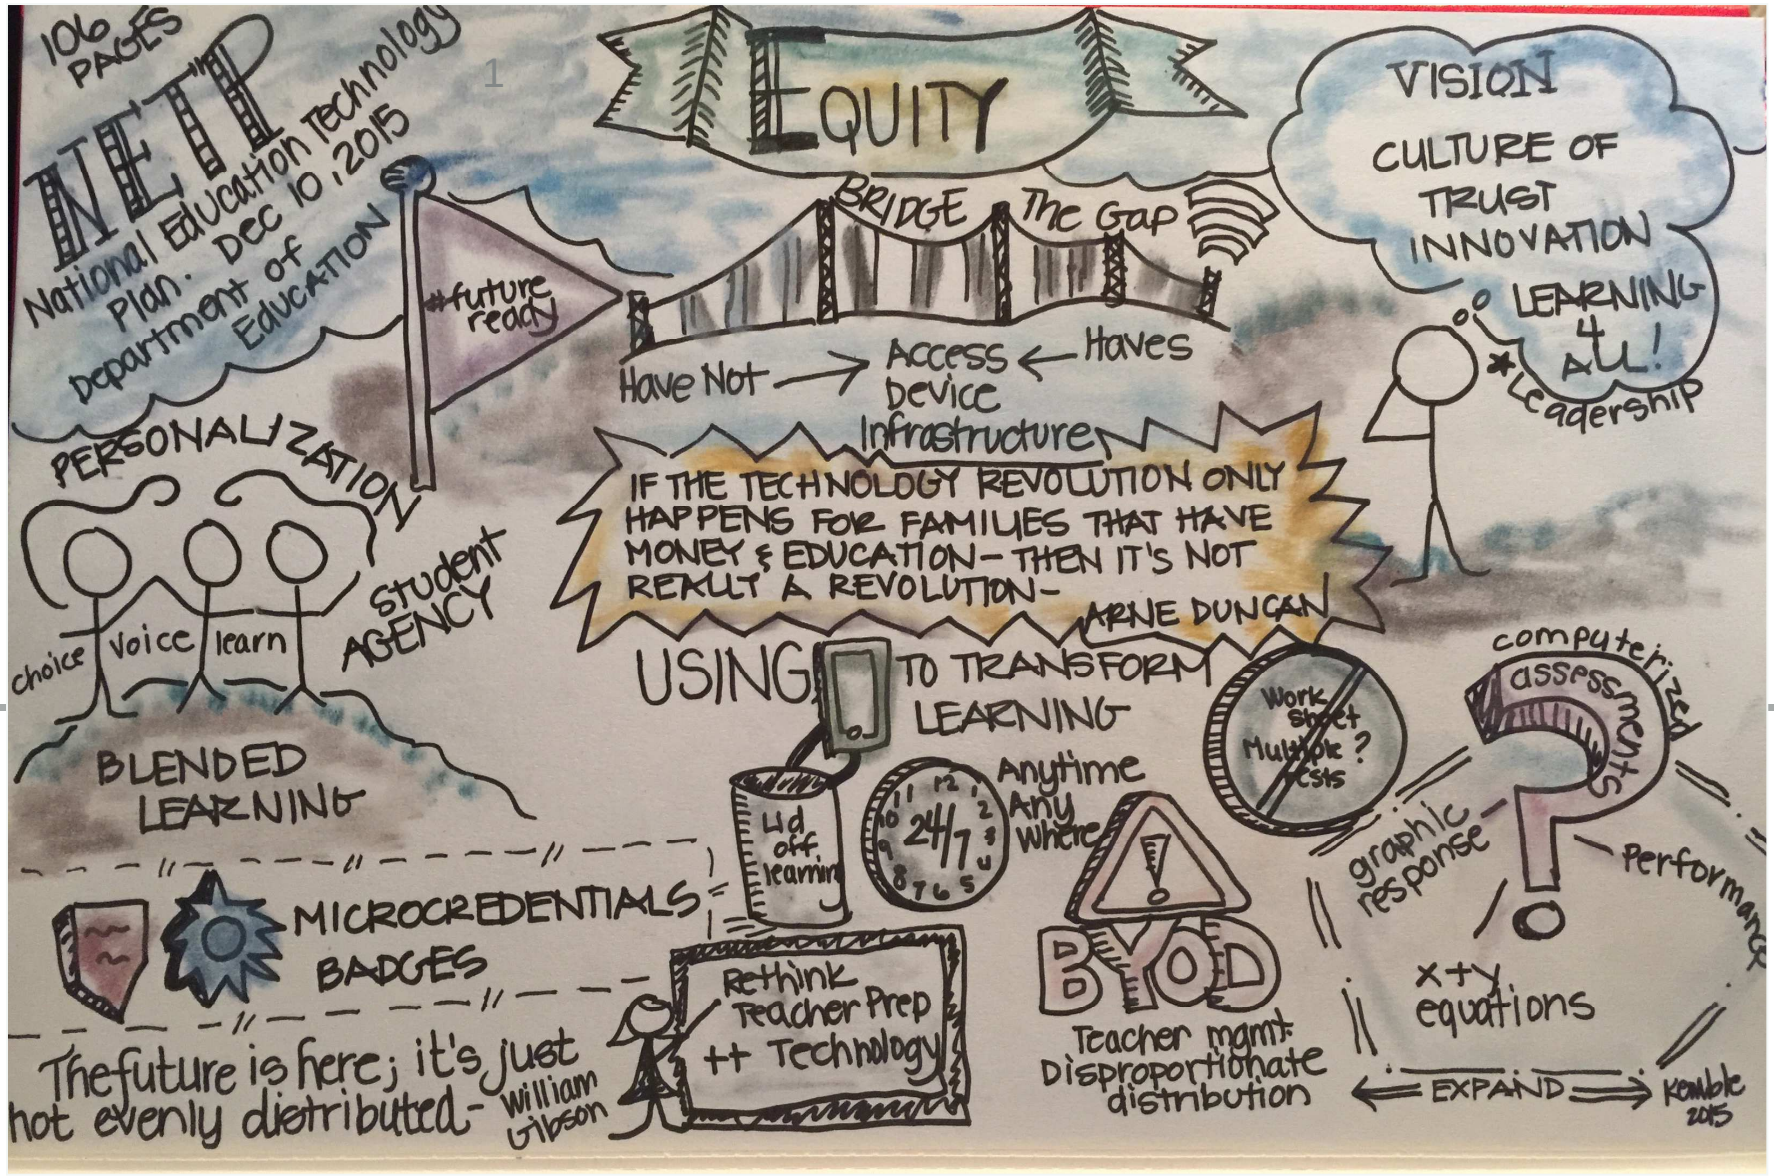
NETP 2016

NATIONAL EDUCATION TECHNOLOGY PLAN DECEMBER 10, 2015



IF THE TECHNOLOGY REVOLUTION ONLY HAPPENS FOR FAMILIES THAT HAVE MONEY AND EDUCATION, THEN IT IS NOT REALLY A REVOLUTION

Arne Duncan, U.S. Secretary of Education

DIGITAL USE DIVIDE

While essential, closing the digital divide alone will not transform learning. We must also close the digital **use** divide by ensuring all students understand how to use technology as a tool to engage in creative, productive, life-long learning rather than simply consuming passive content.

PASSIVE USE

ACTIVE USE

FUTURE OF ASSESSMENT

The shift from traditional paper and pencil to next generation digital assessments enables more flexibility, responsiveness, and contextualization.

	TRADITIONAL	NEXT GENERATION
TIMING	After learning	Embedded in learning
ACCESSIBILITY	Limited	Universally designed
PATHWAYS	Fixed	Adaptive
FEEDBACK	Delayed	Real Time
ITEM TYPES	Generic	Enhanced

THE FUTURE IS HERE, IT'S JUST NOT EVENLY DISTRIBUTED.

Technology update from LHS Library

December 7, 2015

Yes we have checked out devices!

ChromeBook Stats - As of December 7th our 10 Chromebooks have been checked out 72 times this year. (Three of them have been in repair for most of semester.)

Chromebook Summary

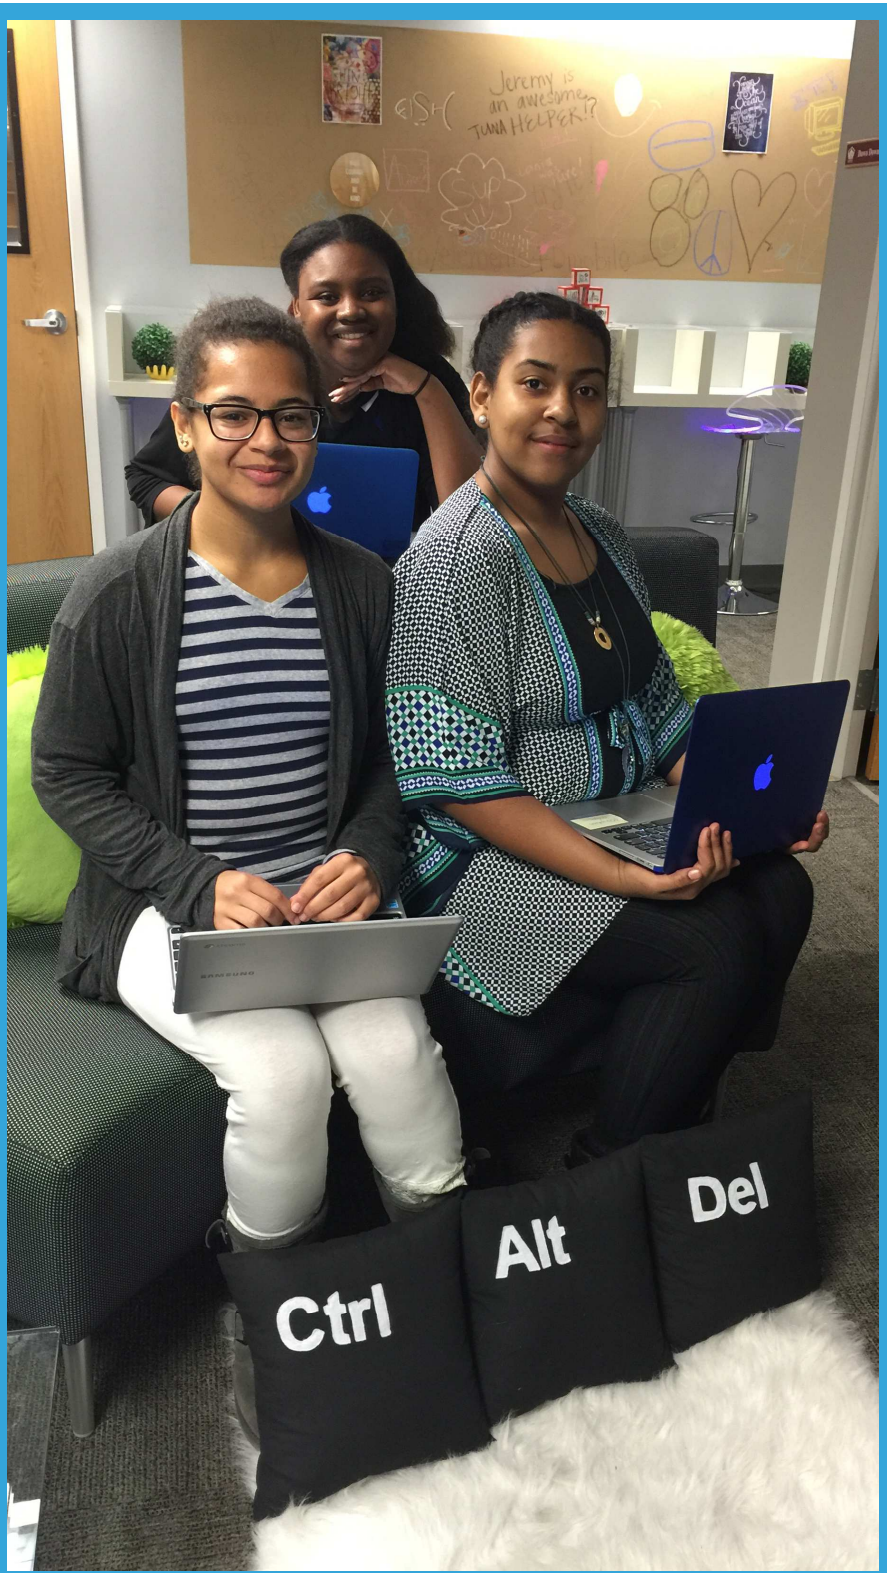
We have 10 Chromebooks. We check them out for a 10 school day period, about 2 weeks. Students then put name on waiting list and start process again.

Kajeet Hotspots Summary

The 10 Kajeets have been more popular than the Chromebooks. They have a longer waiting list. They are cataloged through Textbooks so we cannot track every checkout.

MacBook

All 25 of the 11" MacBook Airs are currently checked out. We began checkout with students in AP Push and Algebra classes; then expanded to all student body until we ran out.



THANK YOU!
