From: Jerri Kemble, assistant superintendent, leading, learning & technology

Re: Technology Replacement

Date: March 8, 2018

Background:

At the February 12, 2018 board meeting, the board of education approved an equipment lease for apple technology, refreshing aging devices. The College and Career Center staff devices were not included in the apple lease.

Rationale

In order to maintain current devices for our staff at the College and Career Center, a refresh of those devices is also needed.

Apple, Inc	MacBook Pro 15"	10	X \$1,799.00	\$17,990.00
<i>Apple is a sole source provider of Apple devices at educational discount pricing</i>				
<i>Quote# 2204665967</i>				

Best Buy	Lenovo Think Pad	5	X \$2,065.28	\$10,326.40
<i>Quote #234499857</i>				

Total	\$28,316.40
--------------	--------------------

Recommendation:

Administration recommends purchasing the 10 MacBook Pros and 5 Lenovo Think Pads to be used to replace staff devices, primarily at the College and Career Center.

Motion:

"I move the board of education purchase from Apple, Inc., 10 MacBook Pro 15" devices for \$17,990.00 and 5 Lenovo Think Pads from Best Buy at \$10,326.40. A total of \$28,316.40, to be paid from the district capital outlay technology budget."
